

EACTS 2011 Ethicon Cardiovascular Simulation Award

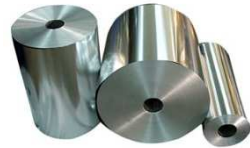

VALLADOLID CARDIAC TEAM CORONARY ANASTOMOSIS SIMULATOR BOX

JAIME ARROYO
4 YEAR RESIDENT
CARDIAC SURGERY SERVICE
VALLADOLID CLINICAL HOSPITAL
SPAIN

EACTS 2011 Ethicon Cardiovascular Simulation Award

MATERIALS

Tin Sheet 0,2 mm (20 x 30 cm)= 5€

Wire #2 (2,36 mm) 14 cm: 0.10 €

Alligator Clampas x 4: 0,60 €

Sucking hooks x4: 0,50 €

6 pair of screws (19 mm) with wheel nuts: 0,25 €

EACTS 2011 Ethicon Cardiovascular Simulation Award

MATERIALS

Latex surgical tubing:

3/16" (3mm internal diameter and 0.8 mm wall size)

7 cm x 2: 0,56 €

Latex surgical tubing is superior than silicone in elasticity, flexibility and gripping power.

It maintains memory after repeated stretching and has tremendous holding strength.

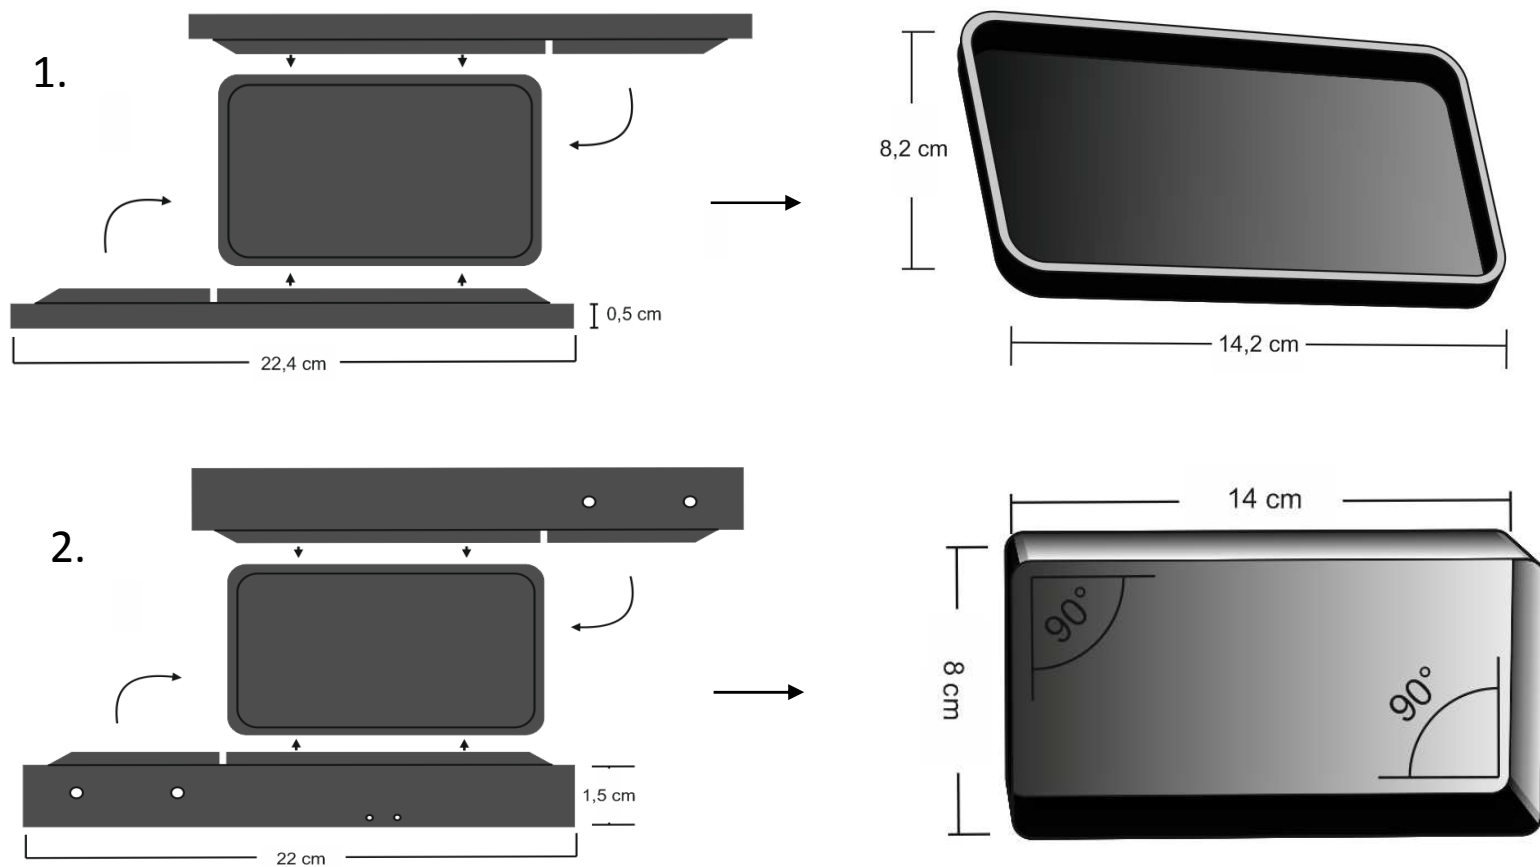

Therefore, is very suitable as a reusable material.

= 7,01 €
